

Email from Manager - Commercial Management (then) RTA of NSW May 5, 2011

I have received your email from our Contact Centre in relation to P plates.

You are free to manufacture and market P plates without any RTA involvement or approval. However, you would market these at your own risk.

Please do not hesitate to contact me if you would like further information or our current product specifications.

Can you please advise if it is legal for a fully licenced driver to drive a vehicle with a red or green p plate displayed eg: down the freeway at 110km.

Is this an offence if the driver has a black licence.

It is not an offence for an unrestricted licence holder to display P or L plates.
